### CUHK Innovation Day 2024

#### 1. Background

Over the years, CUHK has strived to translate research and innovation (R&I) into projects that create societal impacts. Through capitalisation of intellectual properties, entrepreneurial activities and commercialisation of R&I projects, such knowledge transfer between universities and society helps bring about socio-economic impact and improvements to the community and businesses.

**CUHK Innovation Day** is an annual event demonstrating CUHK's endeavours and achievements in promoting research and innovation in Hong Kong and beyond. This event brings together government officials, policymakers, stakeholders in research and innovation, industry leaders, and the CUHK community to create synergy, explore collaboration opportunities and forge partnerships. The theme of the event this year is "Clean Energy".
