### Abstract

Building upon the success of *BioPharma Asia Convention 2013* at Singapore last year, a professional delegation of CUHK academics has joined ORKTS to *BIO International Convention & Study Mission 2014* at San Diego in June 2014. The event provided a platform for CUHK delegates to promote their latest research projects, explore business opportunities and engage in scientific discussion with leading industrial partners at one of the biggest industry gatherings.

The delegates will share with peers and colleagues their insights and experience in bridging innovation and commercialization.
